William E. Poole
COLLECTION

Presented by
Atlantic Premium Shutters™

"I specify Atlantic Shutters for all of our home designs. They impart a sense of security, quality and character that is distinctive even from a distance... they are simply the best".
 —William E. Poole

The ultimate, fully working shutter.

For nationally acclaimed designer, William E. Poole, being a home planner has always meant more than creating home plans and developing neighborhoods. He believes that a home is a place to store memories; an environment built on the ideals of comfort and beauty – *The American Dream*.

William E. Poole and Atlantic Premium Shutters continue that ideal by creating the finest, most distinctive shutters to complete your own American Dream.

William E. Poole
 COLLECTION

The William E. Poole collection of shutters will bring a lifetime of beauty and performance to any home. They are truly functional and historically accurate with the exact look and feel of fine joinery. Every shutter is custom manufactured and meticulously hand assembled to meet the highest quality standards.

Modern technology is utilized to make these shutters maintenance-free and worry-free for many years to come. They are made from pultruded fiberglass, proprietary composite materials, and high density PVC. An automotive grade, two-part acrylic urethane finish is applied for a superior finish in your choice of 40 specially formulated colors or a custom color.

These custom shutters are available in Raised Panel and Louvered styles and are sized to meet the customer's specifications. For operable installation, shutters are mounted with stainless steel hardware with a black powder coat finish.

Historically accurate. Authentic in every detail.

The outer edge of each shutter stile is crafted so that one shutter overlaps the other when the shutter is closed. This provides a tight and weatherproof fit. The 3/8" beading detail on the back of the shutter's shiplap edge offers the handcrafted elegance of fine joinery.

Available in forty historically authentic colors.

Lifetime
 ON MATERIALS CONSTRUCTION
Warranty

These shutters are backed by a limited lifetime warranty against cracking, splitting, rotting and excessive warping. The paint finish is warranted against peeling or flaking for fifteen years. See the warranty document for further information.
